

EVERYTHING CONCRETE

BY

ARTICLAD

A CREATIVE TOUCH TO YOUR WALLS

Endless opportunities
to develop and manipulate
massing and forms.

Concrete is the most versatile product on the earth and available in abundance. A material that can be traced back over 2,000 years, No construction ever is possible without concrete but if you think you've seen it all when it comes to concrete products, think again. Concrete is way beyond just a structural product!

The robust and most resilient product has a beautiful luxurious side too, which makes it inescapable, A beauty that's not delicate.

We decided to go an extra mile to explore the beautiful side of concrete, bringing synergy between our expertise and endless imagination of our clients factoring the cost.

We have gathered innovative concrete technology "Kratos Beton" which is extremely dense, wispy and ductile concrete with the potential to completely transform the look and feel of all our offerings.

"Everything Concrete by Articlاد" is a concept based on philosophy of "You design, we execute".

From concept to creation, making your vision come true. Each product is handcrafted in the state of art production and concrete research centres of Articlاد under close examination of our experts and are stipulated to the taste of designers striving for uniqueness.

After a thorough research our experts could make a standard range of beautiful three dimensional cladding in geometrical pattern.

3D Geometrical Cladding creates surfaces full of optical sensations and inspirational images adding both style and depth. When played with light, 3D patterns can bring mind-boggling impressions.

EVERYTHING CONCRETE

A concept based on philosophy
of "you design, we execute".
from concept to creation,
making your vision come true.
